Not listed? Send us the nameplate: we often help with related types too.

Our services

Inspections

We assess the condition of the unit and its components, and tell you what needs attention and what can wait.

Overhauls

Planned overhauls with OEM parts, with a clear record of the work.

Troubleshooting

Loss of performance, vibration, high temperatures: we help find the cause and the right fix.

Spare parts

OEM spare parts, supplied through the Engine Partners Group.

We don't attend on board ourselves; for work on board we arrange partners we trust.

How to request a quote

- 1 Turbocharger type and serial number from the nameplate, preferably with a photo
- 2 Engine and vessel name or IMO number
- 3 Parts needed, or the job or the problem
- 4 Delivery port and the date you need it
